

# JPMorgan Chase “Best FinTech for Good”

## Hack on a financial technology project for social good!

Hack on any financial technology project that gives back to your community in a positive way. If you don't have a specific idea, you can consider address one of the below themes. For example, using technology to:

- Improve Financial Literacy
- Empower Minority Small Business Owners Entrepreneurs
- Address the Student Loan Debt Crisis
- Help Natural Disaster Victims with Access to Emergency Money
- Making Banking Easier for the Physically Disabled

### JPMORGAN CHASE JUDGING CRITERIA

Projects will be judged based on the following criteria:

- **Impact:** How well does the solution address the challenge or problem?
- **Innovation & Creativity:** How creative is the solution? Does it bring new ideas and approaches to solving the problem?
- **Completeness of Solution:** Is the solution finished? Does it work? If not, is there a roadmap for future enhancements?
- **Sustainability:** Is the solution sustainable within the context of the community it's aiming to impact?
- **Design:** Is the solution well thought out and designed?
